E. **SESSION SUMMARY:**

   The site has a structure that is rather large and square and is low to the ground. The structure has a pointed roof. This strucutre is light yellow or creme or tan in color. There is green associated with the site. The structure is rather isolated and has a lot of dense shrubbery around it. The strucuture has rounded entrances.
   The structure may have something built on to the side of it or may have smaller objects to the side of it.
   People go to the strucuture to work. These people are dressed conservatively. These people help other people who come to the strucuture "to receive" something. The word "report" phonetically surfaced.
   In the past history of this strucuture, it was used for an entirely different purpose. I could see dark people.
   I felt that the location of the strucuture it could get very hot.
   Children are also at the site.
